Company Position on Lowering the Trading Unit

TonenGeneral Sekiyu K.K. regards liquidity of our stock as an important management issue. However, it is estimated that lowering the trading unit would require considerable cost associated with exchange of stock certificates, etc.

Therefore, at present, we do not believe that it is necessarily in the best interest of all of our shareholders.

We continue to monitor potential factors affecting the trade unit and market conditions, keeping in mind the need to enhance both liquidity and the interests of all of our shareholders.
