SPRAY COMPOUND
Lubricant for open gears and wire ropes

SPRAY COMPOUND is a solvent diluted lubricant for open gears and wire ropes. SPRAY COMPOUND is rich in permeability because the viscous lubricant component is diluted with solvent. It does not take any trouble to apply because it is in a spray can. SPRAY COMPOUND creates a strong coating film after solvent evaporation.

● SPECIAL FEATURES
1. Easy to coat
   The viscous ingredients in SPRAY COMPOUND are diluted with a solvent. Since the packing is spray can, SPRAY COMPOUND can be easily applied to the lubricating surface.

2. Excellent load-carrying property and anti-wear performance
   SPRAY COMPOUND withstands shock load well, protects lubricated parts and prevents wear. This is because a strong adhesive film is formed after solvent evaporation.

3. Excellent rust prevention and corrosion protection
   SPRAY COMPOUND does not easily wash off even when it is exposed to water and prevents rusting and corrosion on the coated surface, so prolongs the life of open gears, wire ropes, and so on.

● APPLICATIONS
   SPRAY COMPOUND is recommended for use in open gears, chains and wire ropes.

● CONTAINERS
   0.4 l spray can (6 pieces)

● TYPICAL PROPERTIES OF SPRAY COMPOUND

| Hazard Statement: | Extremely flammable aerosol  
Highly flammable liquid and vapour  
Harmful if inhaled  
Causes skin irritation  
Causes eye irritation  
May damage fertility or the unborn child  
Causes damage to organs (or state all organs affected (central nervous system))  
May cause respiratory irritation or May cause drowsiness or dizziness  
Causes damage to organs (state all organs affected (central nervous system, kidney, liver), if known) through prolonged or repeated exposure  
Toxic to aquatic life |
| Precautionary Statements: |
| Prevention | Do not handle until all safety precautions have been read and understood.  
Wear protective gloves/protective clothing/eye protection/face protection.  
Do not allow the eyes to become exposed to the product. Do not swallow the product.  
Keep away from heat/sparks/open flames/hot surfaces – No smoking.  
Use explosion-proof electrical/ventilating/lighting/equipment.  
Do not spray on an open flame or other ignition source.  
Ground/bond container and receiving equipment.  
Use only non-sparking tools.  
Take precautionary measures against static discharge.  
Pressurized container: Do not pierce or burn, even after use.  
Keep away from heat/sparks/open flames/hot surfaces – No smoking.  
Use explosion-proof electrical/ventilating/lighting/equipment.  
Do not spray on an open flame or other ignition source.  
Ground/bond container and receiving equipment.  
Use only non-sparking tools.  
Take precautionary measures against static discharge.  
Pressurized container: Do not pierce or burn, even after use.  
Use only outdoors or in a well-ventilated area.  
Obtain special instructions before use.  
Do not breathe dust/fume/gas/mist/vapours/spray.  
Wash hands thoroughly after handling.  
Do not eat, drink or smoke when using this product. |
| Response | IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.  
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.  
If the eyes are exposed to the product. Rinse the eyes with plenty of running water and immediately contact a physician.  
IF ON SKIN: Wash with plenty of soap and water.  
IF exposed or concerned: Get medical advice/attention.  
Avoid release to the environment.  
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.  
Get Medical advice/attention if you feel unwell.  
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.  
Take off contaminated clothing and wash before reuse.  
If skin irritation occurs: Get medical advice/attention.  
IF IN EYES: Rinse continuously with water for several minutes.  
Remove contact lenses if present and easy to do. Continue rinsing.  
If eye irritation persists: Get medical advice/attention.  
In case of fire: Use suitable extinguishing media for extinction. |
| Storage | The product must be stored in a cool, well-ventilated location where it will not be exposed to direct sunlight.  
Containers that have been opened must be tightly sealed.  
Store in a well ventilated place. Keep container tightly closed.  
Store in a well ventilated place. Keep cool.  
Store locked up.  
Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. |
| Disposal | Dispose of contents/container in accordance with local/regional/national/international regulations.  
If there are any doubts about proper methods of handling the product, contact the point of purchase before proceeding with usage. |
